

AUTOMATION TEST UPSCALE WEBSITE

Explain Results Automation Test
From website upscale.edudev.xyz

Presentation by Naufal Ammar

WHAT WE WILL TALK ABOUT

- Introduction
- Test Case List
- Conclusion
- Closing

INTRODUCTION

- "Upscale" is a website that brings together job seekers and talent seekers.
- In this discussion, we will talk about automation testing using Cypress.
- I have documented the source code on GitHub, and it can be downloaded at the following link.

TEST CASE LIST

Login and Regist Test

- Registration new account
- Registration and regist as talent
- Registration with different password
- Registration with email registered
- Login
- Failed login

Other Test

- FAQ
- Join as Talent
- Join Community
- Konsultasi

Request Quatation

- Request quatation with login
- Request quatation without login

LOGIN AND REGIST TEST

Registration New Account

The screenshot shows a browser window with a Cypress test runner interface on the left and a registration confirmation page on the right.

- krafthaus_
- CR WDE
- wakuliner

LOGIN AND REGIST TEST

Registration with different password

The screenshot shows a Cypress test runner interface on the left and a web browser window on the right. The browser window displays a registration form titled "Register as Talent". The form includes fields for Username, Alamat Email, Password, Konfirmasi Password, Nomor Telepon, and Dari mana kamu dapat informasi soal kami?. A validation message "Harap isi Konfirmasi Password sama seperti Password" is displayed above the password fields. The background of the browser window features a collage of various company logos and names, including Koinworks, cakap, GAMELOFT, krafthaus_, CRWDE, and wakuliner. The Cypress test runner shows a script for "registration_with_different_password_upscale.feature" with step definitions for filling out the form and asserting password equality.

LOGIN AND REGIST TEST

Failed Login

The screenshot displays a browser window with two main panes. The left pane shows the Cypress UI with the test file `failed_login_upscale.feature` open. The right pane shows the `upscale` website's login page.

Cypress Test Code:

```
bit&sr=1920x1080&vp=1263x720&je=0&_u=YADAUAUABAAAAACAAI~&jid=1318224785&gid=167998336&cid=733435616.1692589497&tid=UA-167086272-1&gid=147416434.1692589497&r=1&gtm=457e38g0&jsscut=1&z=633747373
```

When I click login menu upscale#1.3

```
get .btn-login
  -click
  (xhr) POST 200 https://stats.g.doubleclick.net/j/collect?t=dc&aip=1&r=3&v=1&v=j101&tid=UA-167086272-1&cid=733435616.1692589497&jid=1318224785&gid=167998336&gid=147416434.1692589497&u=YADAUAUAAAAACAAI~&z=727279327
```

When I fill the login form upscale#1.3

```
get #email
  -type naufalammar@ticket.com
  (fetch) GET 200 https://va.tawk.to/v1/widget-settings?propertyId=5ebfe22d967ae56c521a60eb&widgetId=default&sv=undefined
  (fetch) POST 400 https://va.tawk.to/v1/session/start
  get .col-lg-8 > #Password
  -type Tes Password
  get #login
  -click
  (xhr) POST 500 /Login/member
```

Then I validation user failed login upscale#1.3

```
-contains Invalid username or password!
```

Browser UI:

The browser title bar indicates the page is not secure (`https://upscale.edudev.xyz/_/#/specs/runner?file=cypress/e2e/Login+Logout/failed_login_upscale.feature`). The address bar shows the URL `https://upscale.edudev.xyz/`. The page content shows the upscale login dashboard with an error message: "Invalid username or password!". The input fields for Email and Password are populated with "nau".

REQUEST QUOTATION

Request Quotation with login

The screenshot shows a Cypress test runner interface on the left and a browser window on the right. The browser window displays a success message: "Request Inquiry berhasil, kami akan segera menghubungi anda sesuai waktu yang telah anda tentukan, terimakasih". Below this message, there is a background image of a group of people. The test code on the left is as follows:

```
43 - click
44 - xpath //input[@value='More than 1000']
45 - click
46 - xpath //input[@value='More than 2 weeks
from now']
47 - click

AFTER ALL
  Clear page
```

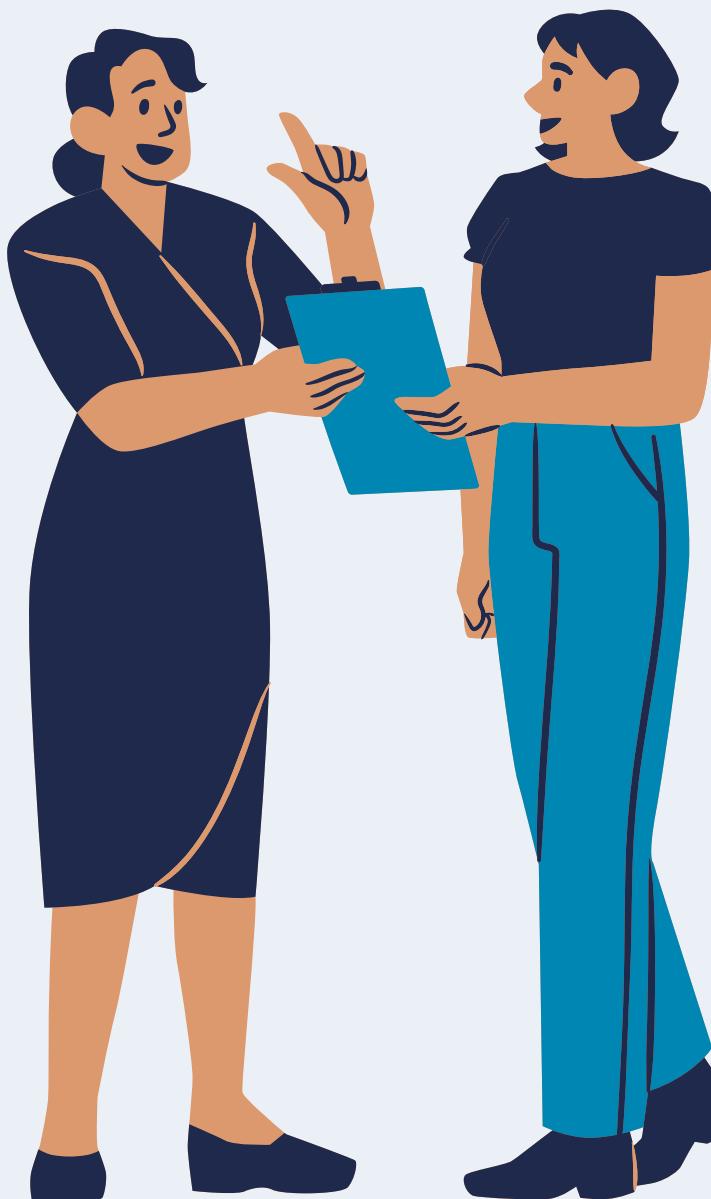

CONCLUSION

Automation testing has been conducted on the `upscale.edudev.xyz` website using Cypress, and all tests have been successfully executed. The source code can be accessed via GitHub by clicking the button on this slide.
